

## **Colorado Agriculture Bibliography 2005**

A Bibliography of Primary and Secondary Material Published 1820-1945

**Subject Areas: Agriculture, Home Economics, and more...**

**Type of Materials: Serials**

Produced by the Colorado State University Libraries  
Copyright by Colorado State University Libraries Applies

### **Overview**

This portable document file (.pdf) is part of the Colorado Agriculture Bibliography project and includes bibliographic information on a variety of topics related to Colorado's agricultural and rural past. The topics covered in this project are varied but include agriculture, education, water, mining, tourism, recreation, and more. The bibliography contains information about but not full-text for books, journals, dissertations, theses, archival collections, maps, photos, pamphlets, and more.

The Web site and bibliography reflects Colorado's contribution to the *Preserving the History of United States Agriculture and Rural Life Project*. This nation-wide effort aims to identify and preserve state and locally significant literature. The project involves the National Endowment for the Humanities (NEH), Cornell University, the United States Agricultural Information Network (USAIN), the National Agricultural Library (NAL), and other land-grant universities.

The records in this bibliography may cover several subject areas and are listed alphabetically by author. A searchable website of the bibliography is also available if you would like to create searches and find information on other topics.
